	1-3		<b>Science</b>		Chemistry

\* Administered electronically

Provincial Exams are in **bold**. Provincial Exams are scheduled for 2 hours but students are permitted an additional 60 minutes, if required.

Parents should be aware that not all students in each grade write every exam. What that means is that students should only be at school during their exam times, plus the time in between exams if they have two on one day. Other than that, since no classes will run that week and as there are no supervised areas for students to gather, they should not be at school.
